Expression of concern for 'Synthesis of a monodisperse well-defined core–shell magnetic molecularly-imprinted polymer prior to LC-MS/MS for fast and sensitive determination of mycotoxin residues in rice' by Mi-Cong Jin *et al.*, *Anal. Methods*, 2017, 9, 5281–5292.

Analytical Methods is publishing this expression of concern in order to alert our readers that we are presently unable to confirm the accuracy of the image presented in Fig. 3f of this *Analytical Methods* paper.

We have contacted the Ningbo Municipal Center for Disease Control and Prevention to request an investigation into the validity of the published figures and this notice will be updated when a conclusive outcome is reached.
