## Correction: *In situ* plasma-assisted atmospheric nitrogen fixation using water and spray-type jet plasma

Peng Peng,<sup>a</sup> Paul Chen,<sup>a</sup> Min Addy,<sup>a</sup> Yanling Cheng,<sup>a</sup> Yaning Zhang,<sup>ab</sup> Erik Anderson,<sup>a</sup> Nan Zhou,<sup>a</sup> Charles Schiappacasse,<sup>a</sup> Raymond Hatzenbeller,<sup>a</sup> Liangliang Fan,<sup>a</sup> Shiyu Liu,<sup>a</sup> Dongjie Chen,<sup>a</sup> Juer Liu,<sup>a</sup> Yuhuan Liu<sup>c</sup> and Roger Ruan<sup>\*ac</sup>

Correction for '*In situ* plasma-assisted atmospheric nitrogen fixation using water and spray-type jet plasma' by Peng Peng *et al.*, *Chem. Commun.*, 2018, 54, 2886–2889.

The authors regret that there was a unit conversion error in Fig. 2 (a). The correct version of Fig. 2 is shown below. Accordingly, the sentence beginning "Furthermore, based on the results in Fig. 2" on page 2887 is incorrect. The correct sentence is as follows: "Furthermore, based on the results in Fig. 2, the total nitrogen fixation rate increased from 22.3  $\mu\text{mol min}^{-1}$  (*ex situ*) to 51.1  $\mu\text{mol min}^{-1}$  (*in situ*), which also showed improvements compared with the other reported *ex situ* synthesis with a similar reaction area." The figure now matches with the rest of the publication, which all have the correct units.

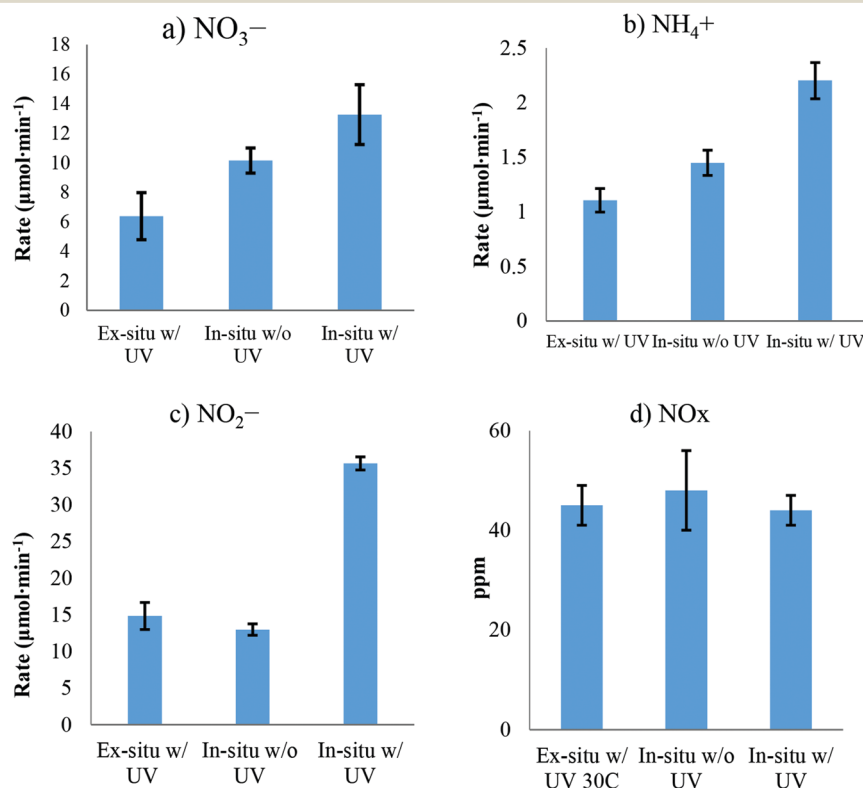

Fig. 2 Synthesis rates of nitrate, nitrite and ammonium under different experimental conditions at 30 °C.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
