Correction for 'A gold isocyanide complex with a pendant carboxy group: orthogonal molecular arrangements and hypsochromically shifted luminescent mechanochromism' by Tomohiro Seki *et al.*, *Chem. Commun.*, 2018, **54**, 11136–11139.

The authors regret that an important reference was omitted from the original article. Espinet *et al.* had previously reported the synthesis of compound **1** and the single-crystal structure of the polymorph **1R** (CCDC number: 693068). This is listed below as ref. 1 and should have been cited in the original article.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
