Acknowledgements

Financial support from the National Science Centre in the course of realization of the Projects “Nanomaterials for Fluorescence Lifetimes Bioimaging (NFLBio)” (No. UMO-2012/06/M/ST5/00048) and “Preparation and characterisation of biocomposites based on nanoapatites for theranostic” (No. UMO-2015/19/B/ST5/01330) are gratefully acknowledged. K. Z. acknowledges financial support from the National Science Center Poland (NCN) under the ETIUDA doctoral scholarship (UMO-2016/20/T/ST5/00493). The authors are grateful for the help with XRD measurements to M.Sc. E. Bukowska, for TEM images to Ph.D. M. Malecka and for IR measurements to M.Sc. A. Ciupa as well as for spectroscopic measurements to Ph.D. L. Marciniak and R. Pazik.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
