Correction: Polyoxometalate based open-frameworks (POM-OFs)

Haralampos N. Miras,* Laia Vilà-Nadal and Leroy Cronin*

Due to an error during the production of the review article, Fig. 3 was duplicated as Fig. 8. The correct version of Fig. 8 is included below.

Fig. 8 A highly-porous ionic crystal comprised of (a) the [Co₂Zn₂(SiW₁₀O₃₉)] sandwich POM anions, combined with (b) tetrabutylammonium (TBA) cations. (c) This structure contains spherical 38 × 38 Å³ cavities (indicated with blue spheres) in which the guest molecules are highly mobile and may be exchanged. All H atoms and solvent molecules are omitted for clarity.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
