Correction for 'Activating molecular oxygen by Au/ZnO to selectively oxidize glycerol to dihydroxyacetone' by Ye Meng *et al.*, *Catal. Sci. Technol.*, 2018, **8**, 2524–2528.

The authors wish to correct Fig. 1 of the manuscript.

Fig. 1 should appear as follows:

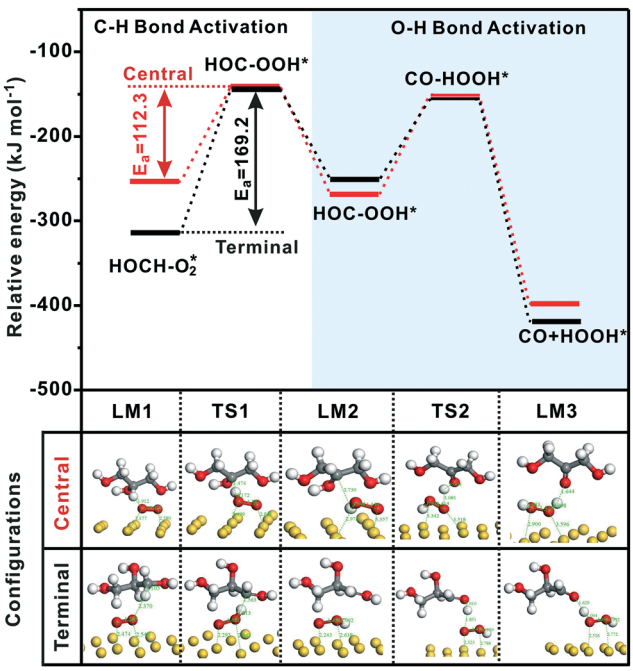

Fig. 1 Energy changes for oxidation of central OH (red line) and terminal groups (black line) of glycerol on the Au (111) surface, respectively. The configurations of local minima (LM) and transition states (TS) are listed in the bottom.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
