Correction for 'An electron transfer driven magnetic switch: ferromagnetic exchange and spin delocalization in iron verdazyl complexes' by David J. R. Brook *et al.*, *Dalton Trans.*, 2018, **47**, 6351–6360.

The authors regret that the equation provided on page 6354 was not the equation used to model the magnetic susceptibility of $[\text{Fe}(\text{dipyvd})_2]^{2+}$. The correct equation is:

$$\chi_{\text{para}}T = \frac{3}{(3 + e^{-J/kT})} \cdot (1 - J'/kT)^{-1}$$

Furthermore the sign of the parameter J' (in the following paragraph) should be negative.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
