## Acknowledgements

The authors would like to acknowledge from National Science Centre (NCN) for financial support within the Project 'Preparation and characterization of nanoapatites doped with rare earth ions and their biocomposites' UMO-2012/05/E/ST5/03904. K. Z. acknowledges for financial support from the National Science Center Poland (NCN) under the ETIUDA doctoral scholarship (UMO-2016/20/T/ST5/00493). We are grateful for the help with XRD measurements to M.Sc. E. Bukowska, for TEM images to M.Sc. K. Ledwa, for Raman measurements to M.Sc. A. Ciupa and for IR spectra to Ph.D. M. Ptak.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
