Correction: Relative costs of transporting electrical and chemical energy

Fadl H. Saadi,^{ab} Nathan S. Lewis^{*a} and Eric W. McFarland^{*cd}

Correction for 'Relative costs of transporting electrical and chemical energy' by Fadl H. Saadi et al., *Energy Environ. Sci.*, 2018, DOI: 10.1039/c7ee01987d.

DOI: 10.1039/c8ee90006j

rsc.li/ees

The sentence "By analogy to oil pipelines, assuming that the capital cost accounts for 38% of the total cost, and assuming a lifetime of **40 years**, the total cost per unit distance for transport of gas through pipelines is higher than the cost for oil pipelines by a factor of 5 to 10" in the second paragraph of section 2.2 should read "By analogy to oil pipelines, assuming that the capital cost accounts for 38% of the total cost, and assuming a lifetime of **25 years**, the total cost per unit distance for transport of gas through pipelines is higher than the cost for oil pipelines by a factor of 5 to 10".

Some of the values in Tables 2, 3, 6 and 7 were incorrect. The incorrect values are marked as bold in the lists below.

The values in column 5 of Table 2 on page 3 should read: 0.09; 0.06; 0.06; 0.04; **0.23**; **0.14**; **0.17**; **0.10**.

The values in column 4 of Table 3 on page 3 should read: 15; 15; 30; 30; 100; 100; **60**; **60**.

The heading of column 3 in Table 6 on page 5 should read: "Energy density (GJ m⁻³)".

The values in column 5 of Table 6 on page 5 should read: **0.03**; **0.02**; **0.05**; **0.02**.

The values in column 4 of Table 7 on page 5 should read: 1.4; 2.3; 2.0; 3.2; 4.7; 8.5; 8.5; **2.9**; **4.6**; **2.3**; **2.4**.

The values in column 5 of Table 7 on page 5 should read: **2.2**; **1.8**; **1.7**; **1.3**; **0.92**; **0.83**; **0.76**; 1.2; 0.95; 0.48; 0.5.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
