## Correction: *In situ* determination of dissolution kinetics of D-limonene in supercritical carbon dioxide by Raman spectroscopy

C. N. Buzolin, M. Espina Palanco, O. F. Wendt and I. Rodriguez-Meizoso\*

Correction for '*In situ* determination of dissolution kinetics of D-limonene in supercritical carbon dioxide by Raman spectroscopy' by C. N. Buzolin et al., *New J. Chem.*, 2017, **41**, 13929–13934.

The value of the Raman shift for sapphire is listed incorrectly as  $2367\text{ cm}^{-1}$  in the Fig. 2 caption and in the text on page 13932 of the published article. The correct value is  $2330\text{ cm}^{-1}$ .

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
