Correction for 'New di-anchoring A- π -D- π -A configured organic chromophores for DSSC application: sensitization and co-sensitization studies' by Praveen Naik *et al.*, *Photochem. Photobiol. Sci.*, 2018, DOI: 10.1039/c7pp00351j.

The authors would like to correct an error in the synthetic procedure for compound **E**₃, as the temperature reported in the published article is incorrect. The correct temperature is 60 °C, and the relevant sentence should read:

The mixture was dissolved in 20 mL of absolute methanol and then stirred at 60 °C for 12 h under an argon atmosphere.

The authors would also like to correct Table 2, as the data reported in this table are incorrect in the published article. The correct Table 2 is shown below.

Table 2 *J*-*V* parameters of DSSCs sensitized with **E**₁₋₃

| Sensitizer | CDCA (mM) | <i>J</i> _{SC} (mA cm ⁻²) | <i>V</i> _{OC} (V) | FF (%) | η (%) |
|-----------------------|-----------|---|----------------------------|------------|---------------|
| E ₁ | 10 | 6.359 ± 0.012 | 0.599 ± 0.001 | 62.5 ± 0.2 | 2.383 ± 0.008 |
| E ₂ | 10 | 1.369 ± 0.003 | 0.510 ± 0.003 | 59.8 ± 0.4 | 0.417 ± 0.002 |
| E ₃ | 10 | 1.450 ± 0.015 | 0.484 ± 0.001 | 56.8 ± 0.1 | 0.399 ± 0.003 |

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
