[www.rsc.org/advances](http://www.rsc.org/advances)**Correction: Solution-processed  $\text{Cu}_2\text{XSnS}_4$  (X = Fe, Co, Ni) photo-electrochemical and thin film solar cells on vertically grown ZnO nanorod arrays**Anima Ghosh,<sup>ad</sup> Dharendra K. Chaudhary,<sup>b</sup> Amrita Biswas,<sup>c</sup> Rajalingam Thangavel<sup>\*a</sup> and G. Udayabhanu<sup>c</sup>Correction for 'Solution-processed  $\text{Cu}_2\text{XSnS}_4$  (X = Fe, Co, Ni) photo-electrochemical and thin film solar cells on vertically grown ZnO nanorod arrays' by Anima Ghosh *et al.*, *RSC Adv.*, 2016, 6, 115204–115212.

The authors regret that there were two errors in the original article. In the "Experimental details" section on page 115205, "1 M sodium sulfide at 70–80 °C for 24 h" should have read "0.5 M sodium sulfide at 70–80 °C for 24 h". Additionally, Fig. 3 parts (b)–(d) were mistakenly reproduced from the authors' previous publication (ref. 33 in the original article). The correct Fig. 3 is presented below.

**Fig. 3** (a and b) FESEM images of ZnO nanorod arrays, ZnS sensitized ZnO nanorods; (c and d) cross-sectional images of ZnO nanorod arrays and ZnS sensitized ZnO nanorods. The inset in panel (a) shows ZnO nanorod arrays and the inset in panel (b) shows a magnified view.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
