Correction for 'Facile synthesis of NiS₂ nanoparticles ingrained in a sulfur-doped carbon nitride framework with enhanced visible light photocatalytic activity: two functional roles of thiourea' by Milad Jourshabani *et al.*, *J. Mater. Chem. A*, 2018, 6, 13448–13466.

The authors regret that there was an error in the previously published Fig. 11b. The corrected Fig. 11b is shown below.

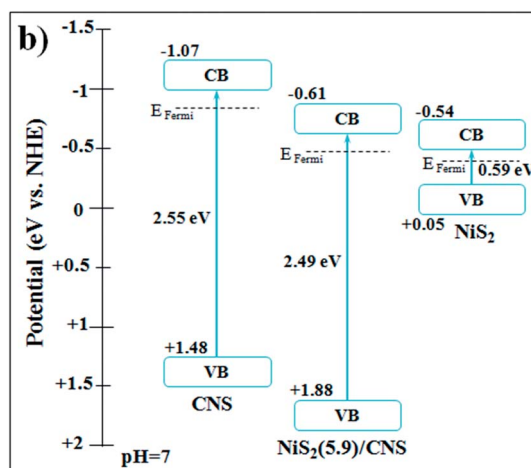

Fig. 11 (b) The potential energy diagrams for the NiS₂, CNS, as well as NiS₂(5.9)/CNS samples.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
