Correction for 'Mitochondrial dysfunction-induced apoptosis in breast carcinoma cells through a pH-dependent intracellular quercetin NDDS of PVPylated-TiO_2NPs' by Thondhi Ponraj *et al.*, *J. Mater. Chem. B*, 2018, **6**, 3555–3570.

The authors regret that incorrect microscopy images were used in the middle row (50 μg/mL) of Fig. 11 of the original manuscript. The corrected version of Fig. 11 is shown below. Please note that the caption for Fig. 11 remains unchanged.

In addition, the authors wish to point out that ref. 18 in the original manuscript is incorrect and should appear as listed below.

18. L. Wang, R. Vivek, W. Wu, G. Wang and J. Ye Wang, *ACS Biomater. Sci. Eng.*, 2018, **4**(5), 1880–1890.

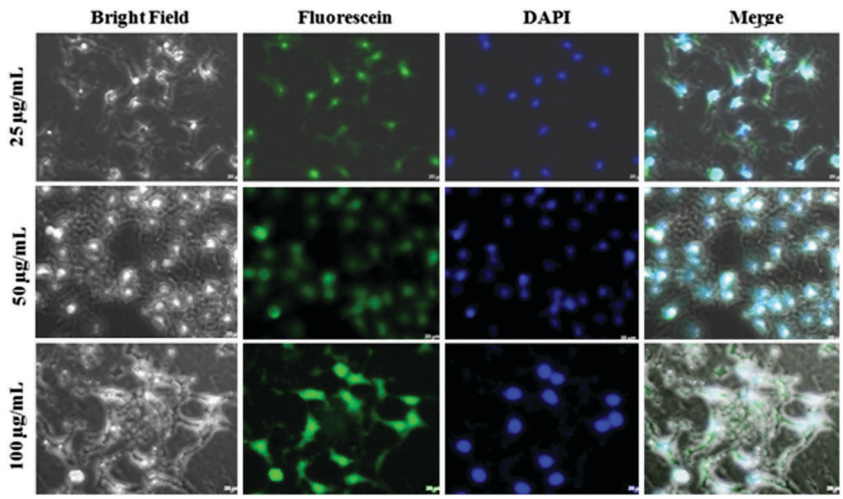

Fig. 11 Fluorescence microscope images of MCF-7 cells incubated with the Qtn-PVPylated-TiO_2NPs nanocombinations labeled with fluorescein for 3 h at different concentrations (25 mg mL^{-1} (top panel); 50 mg mL^{-1} (middle panel), and 100 mg mL^{-1} (bottom panel) in MCF-7 cells). Bright field; green fluorescence from fluorescein; blue fluorescence from DAPI in the nuclei (cell nuclei were stained with DAPI); and the merged images.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
