A reader has drawn our attention to a mistake in our manuscript. Eqn (7)

$$\text{var}(x_b(t)) = \frac{2k_B T + av\gamma}{k_1} (1 - e^{-2k_1 t/\gamma}) + avt$$

Should have read

$$\text{var}(x_b(t)) = \frac{2k_B T + av\gamma}{k_1} (1 - e^{-k_1 t/\gamma}) + avt.$$

We have also corrected different mistakes in the supplementary information file, in the equations in section 1. A corrected supplementary information file is provided.†

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
