Acknowledgements

The authors would like to thank the French National Agency for Research ANR "MODS" (ANR-12-BS10-0005) for its financial support. We acknowledge the French national synchrotron radiation source "Synchrotron Soleil" (Saint-Aubin, France), the CRISTAL beamline for beam time, and the High Pressure Laboratory for technical support. The authors thank P. Horcajada (IMDEA energy, Madrid) for her help and F. Salles (ICGM, Montpellier) for logistical assistance during the synchrotron experiments.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
