Correction: Effect of maturity and mineralogy on fluid-rock reactions in the Marcellus Shale

John Pilewski,[a] Shikha Sharma,*[a] Vikas Agrawal,[a] J. Alexandra Hakala[b] and Mengling Y. Stuckman[b]

Correction for 'Effect of maturity and mineralogy on fluid-rock reactions in the Marcellus Shale' by John Pilewski *et al.*, *Environ. Sci.: Processes Impacts*, 2019, DOI: 10.1039/c8em00452h.

In the original article, the $\%R_0$ values on the *x*-axis of Fig. 3C were incorrect. The Figure with the corrected values is shown below. The authors apologise for this error and state that this error does not affect any of the scientific findings and interpretations.

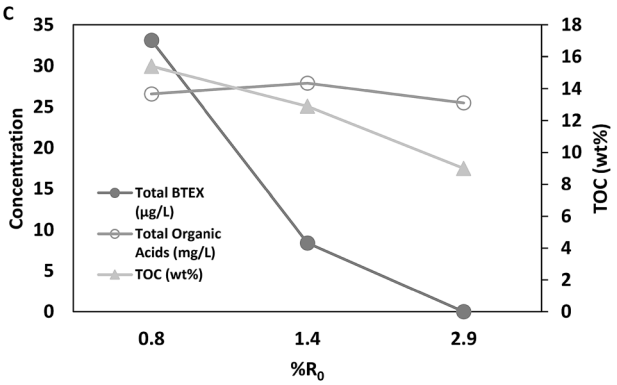

Fig. 3 (C) Plot of the relationship between total target VOCs, total target organic acids, TOC, and $\%R_0$. The lines indicate the direction of the data trend and do not represent a calculated fit of the data.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
