Correction for 'Studies on the DNA binding and anticancer activity of Ru(II) polypyridyl complexes by using a (2-(4-(diethoxymethyl)-¹H-imidazo[4,5-f][1,10] phenanthroline)) intercalative ligand' by Ravi Kumar Vuradi et al., *New J. Chem.*, 2018, **42**, 846–859.

The authors would like to correct Fig. 9, as the panels for the control after 48 h and for complex 2 after 48 h are incorrect. The correct Fig. 9 is shown below.

Fig. 9 HeLa cells were treated with complexes **1**, **2** and **3** at a concentration of 50 μ M for 48 h. After the treatment, the distribution of cell cycle phases was quantified by flow cytometric analysis.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
