Correction for 'Synthesis and application of a highly branched, mechanism-based 2-deoxy-2-fluoro-oligosaccharide inhibitor of *endo*-xyloglucanases' by Namrata Jain *et al.*, *Org. Biomol. Chem.*, 2018, **16**, 8732–8741.

The authors regret that the ¹H and ¹³C NMR chemical shift values for compounds **2**, **4**, and **5**, as well as the ¹⁹F NMR values of compound **5**, were incorrectly reported in the main text of the originally published version of the article. The correct data are listed below, including the original ¹⁹F NMR assignment for compound **4**. The corresponding spectra were correctly displayed in the Electronic Supplementary Information (ESI) and remain unchanged by this correction.
