Correction for 'Enantioselective copper catalysed intramolecular C–H insertion reactions of α -diazo- β -keto sulfones, α -diazo- β -keto phosphine oxides and 2-diazo-1,3-diketones; the influence of the carbene substituent' by Amy E. Shiely *et al.*, *Org. Biomol. Chem.*, 2017, **15**, 2609–2628.

The authors regret that there were errors in Fig. 3. Specifically, the bars representing ligands **15** and **16** were incorrectly labelled in the legend and there was an error in one of the values used to prepare the figure. The correct figure prepared using the data from Table 1 is shown below.

Fig. 3 Impact of variation of the electron withdrawing group on the enantioselectivity with ligands 15, 16 and 18.

In addition, there was an error Scheme 5 where the diazo group was missing from the final product **4h**. The correct scheme is shown below.
