Correction for 'Synthesis and biological evaluation of pyrazolo–triazole hybrids as cytotoxic and apoptosis inducing agents' by T. Srinivasa Reddy *et al.*, *Org. Biomol. Chem.*, 2015, **13**, 10136–10149.

The authors regret that in Fig. 3, due to a technical error in exporting images from the microscope, part of the image for compound **29** looks like the image for compound **17**. The correct figure is shown below. This error has no impact on the conclusions of the work.

Fig. 3 Compounds **17**, **23**, **29** and 5-flurouracil (5-FU) induced nuclear morphological changes of U87MG cells. Data are mean \pm SD from three independent experiments. ** Represents statistically significant difference with respect to control group at $p < 0.001$.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
