Acknowledgements

The authors are grateful to the Central Instrumentation Facility of Pondicherry Central University and iThemba LABS-National Research Foundation (NRF), Somerset West, Western Cape Province, South Africa for their instrumentation facilities. The authors also would like to extend their sincere appreciation to King Saud University, Deanship of Scientific Research, College of Sciences, Research Centre for supporting this research. We are also thankful to the Department of Physics, Pondicherry University for helping in LASER arrangements and to Bharathidasan University, Tiruchirappalli for providing the Confocal Laser Scanning Microscopy facility.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
