## Correction: Influence of Zn and Co co-doping on oxygen evolution reaction electrocatalysis at MOF-derived N-doped carbon electrodes

Xiaobing Yang,<sup>\*a,b</sup> Juan Chen,<sup>c</sup> Weishen Yang,<sup>a,b</sup> Hao Lin<sup>a,b</sup> and Xuetao Luo<sup>\*d</sup>

Correction for 'Influence of Zn and Co co-doping on oxygen evolution reaction electrocatalysis at MOF-derived N-doped carbon electrodes' by Xiaobing Yang *et al.*, *Inorg. Chem. Front.*, 2019, DOI: 10.1039/c9qi00334g.

The authors regret that an error is present within Fig. 4. In Fig. 4(b), we inadvertently re-used a figure that was published in our previous paper.<sup>1</sup> The correct version of Fig. 4 is shown below.

Fig. 4 (a) XRD patterns of Co/NC, Zn<sub>0.1</sub>Co<sub>0.9</sub>/NC, Zn<sub>0.2</sub>Co<sub>0.8</sub>/NC, and Zn<sub>0.3</sub>Co<sub>0.7</sub>/NC and (b) the Raman spectrum of Co/NC.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
