Correction: Copper-catalyzed direct C–H phosphorylation of *N*-imino isoquinolinium ylides with H-phosphonates

Xin-Chen Zhan, Yu-Yuan Hei, Jian-Lan Song, Peng-Cheng Qian, Xing-Guo Zhang* and Chen-Liang Deng*

 DOI: 10.1039/c9qo90046b
rsc.li/frontiers-organic

 Correction for 'Copper-catalyzed direct C–H phosphorylation of *N*-imino isoquinolinium ylides with H-phosphonates' by Xin-Chen Zhan *et al.*, *Org. Chem. Front.*, 2019, **6**, 1453–1457.

The authors regret that in the introduction important references were omitted that reported additional synthetic methods for the construction of C(sp²)–P bonds, to access functionalized phosphorus-containing isoquinolines. The additional references are given below.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
