Correction for 'Improving the inhibitory effect of CXCR4 peptide antagonist in tumor metastasis with an acetylated PAMAM dendrimer' by Changliang Liu *et al.*, *RSC Adv.*, 2018, 8, 39948–39956.

The authors regret that the term “CXCL12” was incorrectly displayed as “CXCR12” in Scheme 1 and Fig. 6(a)–(c) in the original article. The correct versions of Scheme 1 and Fig. 6(a)–(c) are presented below.

Scheme 1 Schematic illustration of the preparation of the P_{AC80} -E5 complex and the process of anti-tumor metastasis of the E5 peptide in the presence of P_{AC80} .

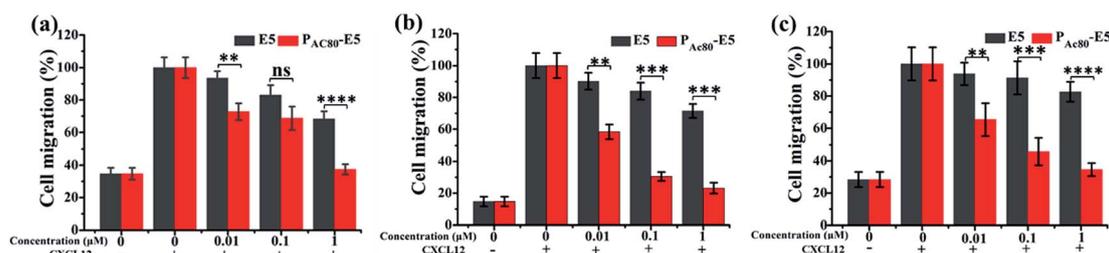

Fig. 6 (a–c) The inhibitory effect of E5 and P_{AC80} -E5 on: (a) MCF-7; (b) MDA-MB-231; and (c) 4T1 cells detected by transwell assay. The CXCL12 supplemented sample without E5 or P_{AC80} -E5 was set as 100% as the control. Error bars represent the standard deviation ($n = 3$).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
