Correction for 'Novel biodegradable and non-fouling systems for controlled-release based on poly( $\epsilon$ -caprolactone)/Quercetin blends and biomimetic bacterial S-layer coatings' by Eva Sanchez-Rexach *et al.*, *RSC Adv.*, 2019, 9, 24154–24163.

The authors regret that Fig. 7 was not displayed correctly in the original article. It should appear as presented below.

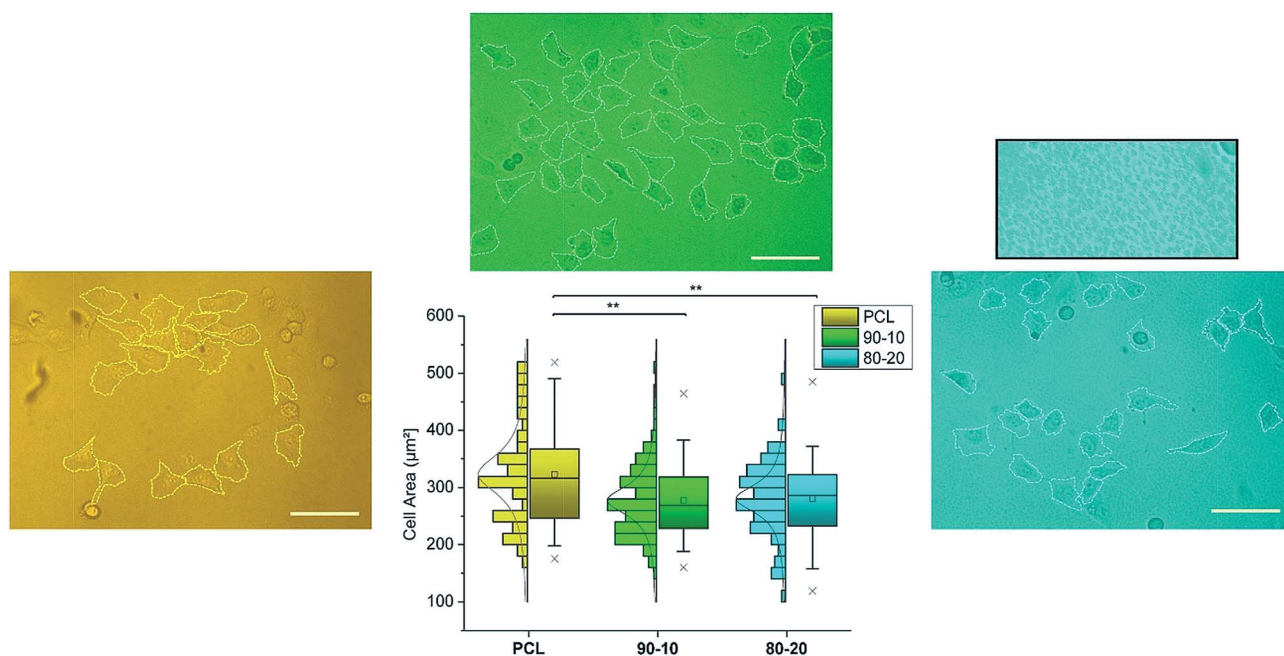

Fig. 7 Cell area calculation from the corresponding optical micrographs on the different PCL systems. Statistical analysis was performed for  $N > 100$  and a one-way ANOVA determined the significance ( $p < 0.01$ , represented by "\*\*") of the recorded variations.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
