Correction for 'Liponitroxides: EPR study and their efficacy as antioxidants in lipid membranes' by Giovanna Mobbili *et al.*, *RSC Adv.*, 2015, 5, 98955–98966.

The authors regret that an incorrect equation was shown in the original article. On page 98963 of the original article, in the equation for fitting power saturation data the term  $x^{1/2}$  was incorrectly shown as  $p_{1/2}$ . The correct equation is shown below:

$$y = Ax^{1/2}[1 + (2^{1/h} - 1)x/p_{1/2}]^{-h}$$

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
