 Correction for 'MOF-5 derived carbon as material for CO₂ absorption' by Wojciech Kukulka *et al.*, *RSC Adv.*, 2019, 9, 18527–18537.

The authors regret that the title shown in the original article and several sentences were incorrect due to the use of the word “absorption” in place of “adsorption”. The correct title is as shown above and all instances of “absorption” in the text should be “adsorption”. The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
