Correction: Non-linear alignment dynamics in suspensions of platelets under rotating magnetic fields

Randall M. Erb,^a Jana Segmehl,^a Michalis Charilaou,^{bc} Jörg F. Löffler^b and André R. Studart^{*a}

Correction for 'Non-linear alignment dynamics in suspensions of platelets under rotating magnetic fields' by Randall M. Erb *et al.*, *Soft Matter*, 2012, **8**, 7604–7609.

In the original paper, there is a typesetting error in eqn (2). The term $\sin^2 \theta$ should be $\sin 2\theta$ making eqn (2):

$$T_m = \frac{2\pi\mu_0\chi_{ps}^2}{3(\chi_{ps} + 1)} \left[(a + d)(b + d)^2 - ab^2 \right] H_0^2 \sin 2\theta \quad (2)$$

This correct equation was used throughout all of the calculations and reported results in this paper. The conclusions of the article are not affected.

The Royal Society of Chemistry apologises for this error and any consequent inconvenience to authors and readers.
