Correction for 'Design rules for encapsulating proteins into complex coacervates' by Whitney C. Blocher McTigue *et al.*, *Soft Matter*, 2019, **15**, 3089–3103.

In the Materials and methods section,  $18.8 \times g$  was used instead of  $18\,800 \times g$  by mistake when converting from 14 000 rpm. This does not affect the conclusions of the article.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
