Correction: High capacity potassium-ion battery anodes based on black phosphorus

Irin Sultana,^a Md Mokhlesur Rahman,^a Thrinathreddy Ramireddy,^a Ying Chen^a and Alexey M. Glushenkov*^{ab}

Correction for 'High capacity potassium-ion battery anodes based on black phosphorus' by Irin Sultana et al., J. Mater. Chem. A, 2017, 5, 23506–23512.

The authors regret that the value of the theoretical capacity of phosphorus was incorrectly reported as 843 mA h g^{-1} in the originally published version of the manuscript. The correct value should read 865 mA h g^{-1} .

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
