Correction for 'Thermoresponsive polysarcosine-based nanoparticles' by Huayang Yu *et al.*, *J. Mater. Chem. B*, 2019, 7, 4217–4223.

rsc.li/materials-b

The authors regret that the reagent HPMA was incorrectly named in the original article as (*N*-(2-hydroxypropyl)methacrylamide). The correct name of the reagent is 2-hydroxypropyl methacrylate. Therefore, (*N*-(2-hydroxypropyl)methacrylamide) in the Abstract and Introduction should be 2-hydroxypropyl methacrylate, and poly(*N*-(2-hydroxypropyl)methacrylamide) in the Abstract should be poly(2-hydroxypropyl methacrylate).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
