Correction: Pb^{2+} coordination-driven self-assembly of amorphous amphiphilic aromatic block copolymer into semi-crystallized nanostructures with enhanced fluorescence emission

Junni Xie, Xiaohong He, Weibin Hu, Meirong Zhou, Kun Jia * and Xiaobo Liu*

DOI: 10.1039/c9tc90128k

rsc.li/materials-c

Correction for ' Pb^{2+} coordination-driven self-assembly of amorphous amphiphilic aromatic block copolymer into semi-crystallized nanostructures with enhanced fluorescence emission' by Junni Xie et al., *J. Mater. Chem. C*, 2019, **7**, 1057–1064.

The authors regret an error in the unit for the SDS solution in the original article.

The unit for SDS aqueous solution (3 mg L^{-1}) in the "Fabrication of amPENs nanospheres" section on line 6 of page 1058 and in the "Fabrication of Pb^{2+} coordinated amPENs nanospheres" section on line 2 of page 1059 should be changed to 3 mg mL^{-1} .

The conclusions of this article are unaffected by this change.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
