Correction: Pb²⁺ coordination-driven self-assembly of amorphous amphiphilic aromatic block copolymer into semi-crystallized nanostructures with enhanced fluorescence emission

Junni Xie, Xiaohong He, Weibin Hu, Meirong Zhou, Kun Jia * and Xiaobo Liu*

Correction for 'Pb²⁺ coordination-driven self-assembly of amorphous amphiphilic aromatic block copolymer into semi-crystallized nanostructures with enhanced fluorescence emission' by Junni Xie *et al.*, *J. Mater. Chem. C*, 2019, 7, 1057–1064.

The authors regret an error in the unit for the SDS solution in the original article.

The unit for SDS aqueous solution (3 mg L⁻¹) in the "Fabrication of ampENs nanospheres" section on line 6 of page 1058 and in the "Fabrication of Pb²⁺ coordinated ampENs nanospheres" section on line 2 of page 1059 should be changed to **3 mg mL⁻¹**.

The conclusions of this article are unaffected by this change.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
