Correction for 'Stretchable and self-healable electrical sensors with fingertip-like perception capability for surface texture discerning and biosignal monitoring' by Xianzhang Wu *et al.*, *J. Mater. Chem. C*, 2019, 7, 9008–9017.

The authors regret an error in Fig. 5 of the original manuscript. Fig. 5a(i) should show a balloon instead of a paper cup. The correct version of Fig. 5 is as below.

**Fig. 5** (a) Optical images showing attachment of a piece of the electronic sensor to a human finger to grab a balloon (i) and the corresponding relative resistance change (ii) and instant response time (iii). (b) Optical images showing attachment of a piece of the electronic sensor to a human finger to grab a paper cup (i) and the corresponding relative resistance change (ii) and instant response time (iii). (c) Optical images showing attachment of a piece of the electronic sensor to a human finger to grab a glass cup (i) and the corresponding relative resistance change (ii) and instant response time (iii).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
