Correction for 'O^2-(6-Oxocyclohex-1-en-1-yl)methyl diazen-1-ium-1,2-diolates: a new class of nitric oxide donors activatable by GSH/GSTπ with both anti-proliferative and anti-metastatic activities against melanoma' by Chengfeng Bai *et al.*, *Chem. Commun.*, 2017, **53**, 5059–5062.

The authors regret that in the original article incorrect images were used for the "Control" panel in Fig. 2A and for the "COMC-6" panel in Fig. 2B. To completely correct the errors, the experiments presented in Fig. 2A and B were re-performed, and the original images in Fig. 2A and B should be replaced with the new images.

The correct Fig. 2 is presented here. The corrected figure does not affect any results presented in the originally-published version, nor the corresponding text description or the conclusion of the paper.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
