Correction: A tropylium annulated N-heterocyclic carbene

Sebastian Appel, Peter Brüggemann and Christian Ganter *

Correction for 'A tropylium annulated N-heterocyclic carbene' by Sebastian Appel *et al.*, *Chem. Commun.*, 2020, **56**, 9020–9023, DOI: 10.1039/D0CC04482B.

The authors regret some inconsistencies between the main text and the Supporting Information, which were brought to our attention by a watchful reader.

The ^{77}Se -NMR chemical shifts of compounds **6** and **9**(BF_4) were partially improperly referenced and the values were unfortunately mixed up while preparing the manuscript. The corrected values are shown below and a corrected version of the ESI has been deposited, which is available online.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
