The authors regret that there were errors in Schemes 2 and 3 in the original article. The reaction time in pentane was stated as 1 h, which should have been 24 h. The correct schemes are provided below.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

Scheme 2 Scope and limitations. (^a Isolated yield. ^b NMR yield using 1,3,5-trimethoxybenzene as internal standard (added after workup). R^F = C(CF₃)₃).

Scheme 3 Control experiments ($\text{R}^{\text{F}} = \text{C}(\text{CF}_3)_3$).
