Correction for 'Isomer-specific cryogenic ion vibrational spectroscopy of the D<sub>2</sub> tagged Cs<sup>+</sup>(HNO<sub>3</sub>)(H<sub>2</sub>O)<sub>n=0–2</sub> complexes: ion-driven enhancement of the acidic H-bond to water' by Sayoni Mitra *et al.*, *Phys. Chem. Chem. Phys.*, 2020, DOI: 10.1039/c9cp06689f.

The authors would like to correct two typos in their published article.

(1) In the Abstract, the sentence beginning “The acidic OH stretching fundamental...”, the number “300 cm<sup>-1</sup>” should be replaced with “450 cm<sup>-1</sup>”.

(2) On page 4505, the sentence beginning “The only exception is the OH bending mode...”, the number “1300 cm<sup>-1</sup>” should be replaced with “1350 cm<sup>-1</sup>”.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
