Correction: Materials space of solid-state electrolytes: unraveling chemical composition–structure–ionic conductivity relationships in garnet-type metal oxides using cheminformatics virtual screening approaches

Natalia Kireeva^{*ab} and Vladislav S. Pervov^c

Correction for 'Materials space of solid-state electrolytes: unraveling chemical composition–structure–ionic conductivity relationships in garnet-type metal oxides using cheminformatics virtual screening approaches' by Natalia Kireeva *et al.*, *Phys. Chem. Chem. Phys.*, 2017, **19**, 20904–20918, DOI: 10.1039/c7cp00518k.

The authors would like to add an additional acknowledgment for the software used in the published article. The additional text is as follows:

For the visualization of the structures VESTA software has been used.¹

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
