Correction: Optical and electrical effects of plasmonic nanoparticles in high-efficiency hybrid solar cells

Wei-Fei Fu, [ID] [a] Xiaoqiang Chen,[a] Xi Yang,[a] Ling Wang,[a] Ye Shi, [ID] [a] Minmin Shi, [ID] [a] Han-Ying Li, [ID] [a] Alex K.-Y. Jen, [ID] [ab] Jun-Wu Chen, [ID] [c] Yong Cao[c] and Hong-Zheng Chen [ID] *[a]

Correction for 'Optical and electrical effects of plasmonic nanoparticles in high-efficiency hybrid solar cells' by Wei-Fei Fu *et al.*, *Phys. Chem. Chem. Phys.*, 2013, **15**, 17105–17111, DOI: 10.1039/C3CP52723A.

We found that Fig. 4 on page 17108 was not the correct figure for ''Current density–voltage (*J–V*) characteristics (a) and the external quantum efficiency (EQE) (b) of the HSCs with different concentrations of Au NPs in PEDOT:PSS layer''; it was the same figure as Fig. 5 by mistake. The correct figure is shown below.

Please note that this Correction does not affect in any way the main conclusions of the paper.

Fig. 4 Current density–voltage (*J–V*) characteristics (a) and the external quantum efficiency (EQE) (b) of the HSCs with different concentrations of Au NPs in the PEDOT:PSS layer.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
