[rsc.li/materials-horizons](http://rsc.li/materials-horizons)Correction for 'Self-powered integrated system of a strain sensor and flexible all-solid-state supercapacitor by using a high performance ionic organohydrogel' by Jianren Huang *et al.*, *Mater. Horiz.*, 2020, **7**, 2085–2096, DOI: 10.1039/D0MH00100G.

The authors regret an error in Fig. 2 of the originally published manuscript. The correct version of Fig. 2 is shown below.  
The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

**Fig. 2** Characterization of the PVA/PAMAA/Gly/NaCl organohydrogels with different NaCl content: (a) SEM images of the freeze-dried organohydrogel: (i) PPGN-0 and (ii) PPGN-3. (b) XRD patterns. (c) FT-IR spectra. Mechanical properties: (d) typical tensile stress–strain curves, (e) tensile strength, (f) Young's modulus, (g) elongation at break, and (h) toughness. (i) Photographs of the low-temperature tolerant behaviour for the PPGN-3 organohydrogel. (j) Dynamic mechanical analysis of the PPGN-3 organohydrogel. (k) Ionic conductivity of the ionic organohydrogels with different NaCl content at room temperature and  $-20\text{ }^{\circ}\text{C}$ .
