Correction: Influence of Zn and Co co-doping on oxygen evolution reaction electrocatalysis at MOF-derived N-doped carbon electrodes

Xiaobing Yang,^{a,b} Juan Chen,^c Weishen Yang,^{a,b} Hao Lin^{a,b} and Xuetao Luo^dCorrection for 'Influence of Zn and Co co-doping on oxygen evolution reaction electrocatalysis at MOF-derived N-doped carbon electrodes' by Xiaobing Yang *et al.*, *Inorg. Chem. Front.*, 2019, 6, 3475–3481, DOI: 10.1039/C9QI00334G.

The authors regret that errors are present within Fig. 7. In Fig. 7(b), we inadvertently re-used a figure that was published in our previous paper,¹ and the caption for Fig. 7 was misassigned. The correct version is shown below.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

Fig. 7 (a) XPS survey spectrum of the $Zn_{0.2}Co_{0.8}/NC$. XPS spectra of (b) Co 2p, (c) Zn 2p, and (d) C 1s.
