## Correction: Influence of Zn and Co co-doping on oxygen evolution reaction electrocatalysis at MOFderived N-doped carbon electrodes

Xiaobing Yang, (1) \*\*a,b\* Juan Chen, \*\* Weishen Yang, \*\*a,b\* Hao Lin\*\*, and Xuetao Luo (1) \*\*d

DOI: 10.1039/d0qi90046j rsc.li/frontiers-inorganic

Correction for 'Influence of Zn and Co co-doping on oxygen evolution reaction electrocatalysis at MOFderived N-doped carbon electrodes' by Xiaobing Yang et al., Inorg. Chem. Front., 2019, 6, 3475-3481, DOI: 10.1039/C9QI00334G

The authors regret that errors are present within Fig. 7. In Fig. 7(b), we inadvertently re-used a figure that was published in our previous paper, <sup>1</sup> and the caption for Fig. 7 was misassigned. The correct version is shown below.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

Fig. 7 (a) XPS survey spectrum of the  $Zn_{0.2}Co_{0.8}/NC$ . XPS spectra of (b) Co 2p, (c) Zn 2p, and (d) C 1s.
