The authors regret that an incorrect version of Fig. 8 was included in the original article. This was due to FTIR spectra of the commercial reference sample (DGEBA/DDM, EP-0) being confused with those of other samples. The correct version of Fig. 8 is presented below.

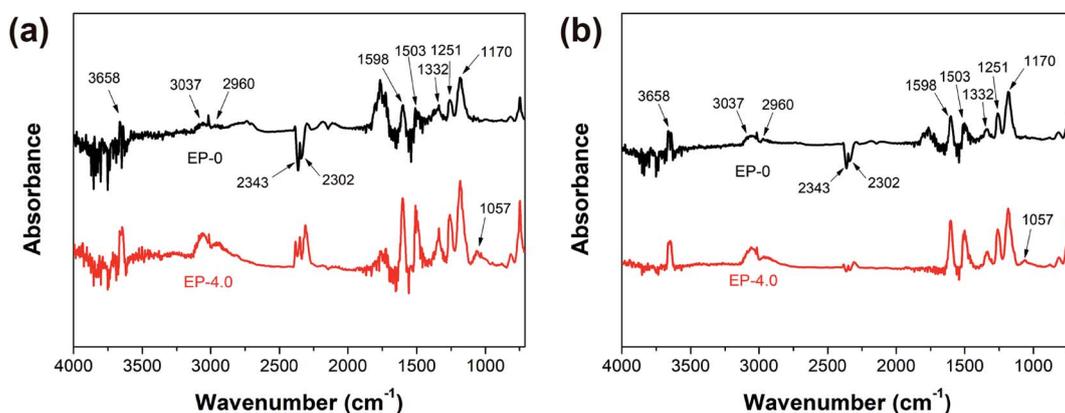

Fig. 8 FTIR spectra of the pyrolysis products of EP-0 and EP-4.0 at (a) the initial and (b) maximum degradation temperatures.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
