Correction: *Rubia tinctorum* root extracts: chemical profile and management of type II diabetes mellitus

Enas E. Eltamany,^a Mohamed S. Nafie,^b Dina M. Khodeer,^c Aya H. H. El-Tanahy,^d Maged S. Abdel-Kader,^{*ef} Jihan M. Badr^a and Reda F. A. Abdelhameed^a

Correction for '*Rubia tinctorum* root extracts: chemical profile and management of type II diabetes mellitus' by Enas E. Eltamany et al., RSC Adv., 2020, 10, 24159–24168, DOI: 10.1039/D0RA03442H.

The authors regret that there was an error in the caption for Table 6 in the original article. The text originally read: "Flavonoids of *Rubia tinctorum* root extract identified by LC-HRMS analysis (positive mode)". This caption should read: "Flavonoids of *Rubia tinctorum* root extract identified by LC-HRMS analysis (negative mode)".

In addition, there was an error in one of the columns of Table 6 in the original article. The column was originally labelled " m/z $[M + H]^+$ ". This should read " m/z $[M - H]^-$ ".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
