Correction for 'Correction: Microwave-assisted synthesis of polypyridyl ruthenium(II) complexes as potential tumor-targeting inhibitors against the migration and invasion of Hela cells through G2/M phase arrest' by Jieqiong Cao et al., *RSC Adv.*, 2017, 7, 29925, DOI: 10.1039/C7RA90067H.

The authors regret errors in Fig. 1a in the previous versions of the article. The corrected Fig. 1 is shown below, where the panel for the wound healing assay of Hela cells after treatment with 4 (2 μ M) has been replaced.

Fig. 1 (A) The wound healing assay of Hela cells after treatment (A) with 4 (0, 2, 4 and 8 μ M) and [NAMI-A] = 10 μ M. (B) The healing rate of Hela cells treated with 4 and NAMI-A. (C) The transwell assay of Hela cells after treatment with 4 (0, 2, 4 and 8 μ M) and (D) [NAMI-A] = (0, 5, 10 and 20 μ M).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
