## Correction: Increasing efficiency of perovskite solar cells using low concentrating photovoltaic systems

Hasan Baig,<sup>\*a</sup> Hiroyuki Kanda,<sup>b</sup> Abdullah M. Asiri,<sup>c</sup> Mohammad Khaja Nazeeruddin<sup>b</sup> and Tapas Mallick<sup>a</sup>

Correction for 'Increasing efficiency of perovskite solar cells using low concentrating photovoltaic systems' by Hasan Baig *et al.*, *Sustainable Energy Fuels*, 2020, 4, 528–537, DOI: 10.1039/c9se00550a.

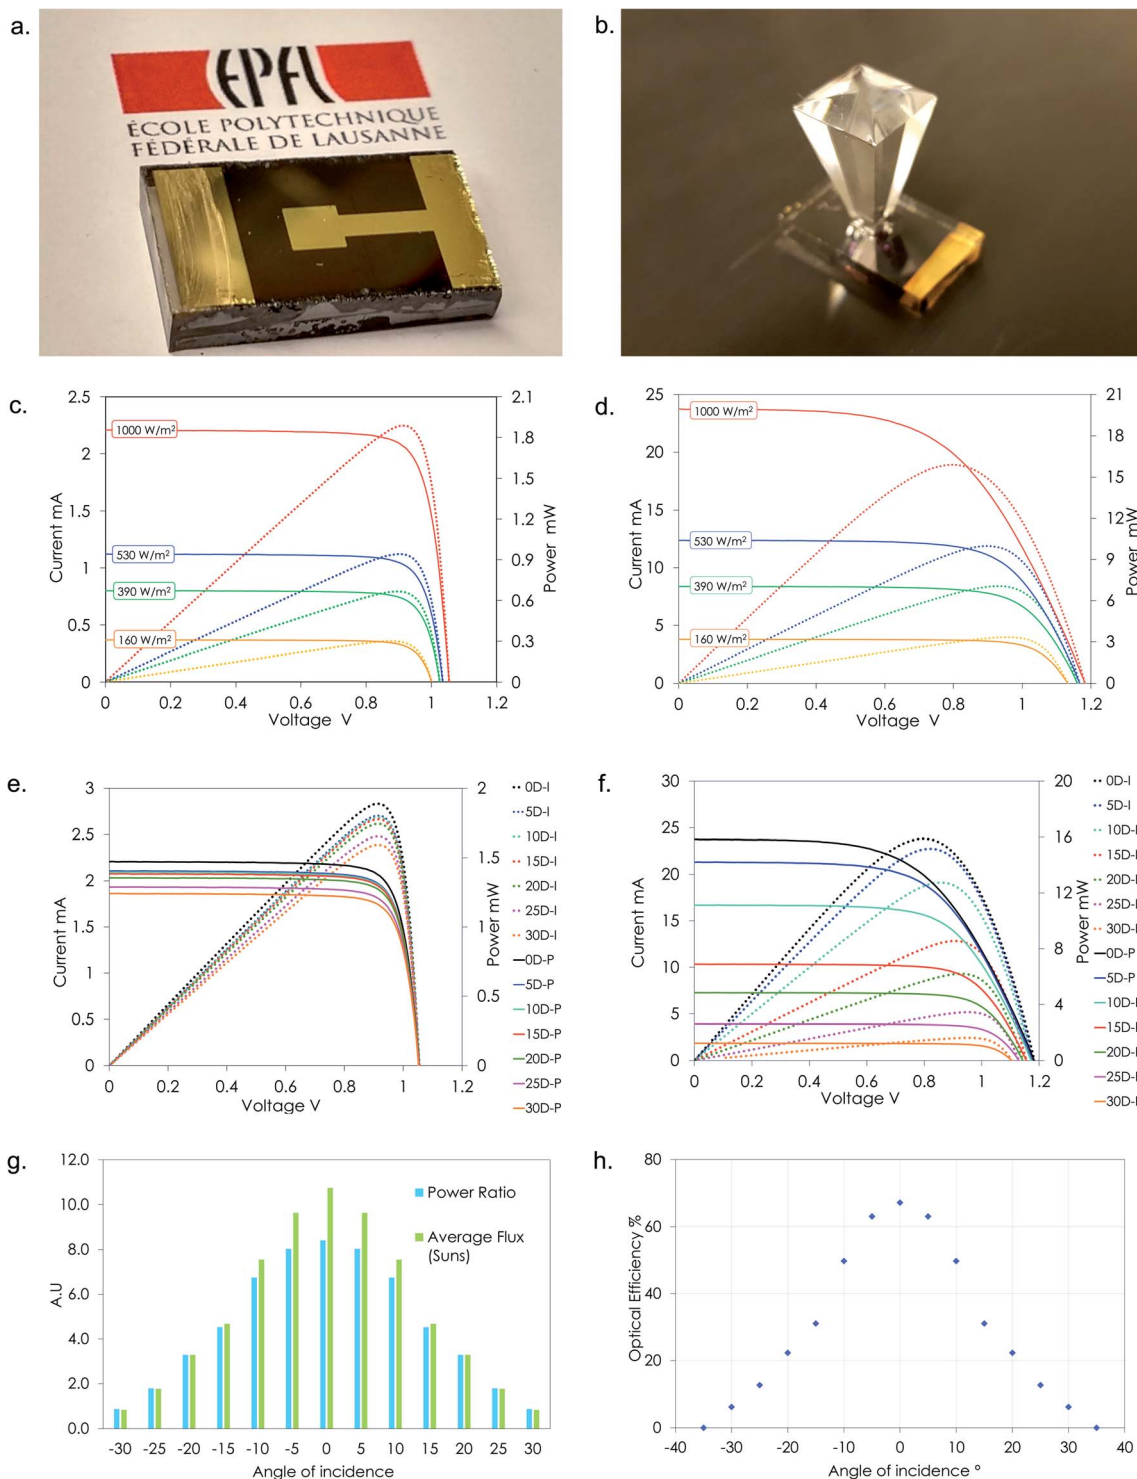

Fig. 3c was incorrect in the original submission. Fig. 3 should appear as follows:

<sup>a</sup>University of Exeter, Environment and Sustainability Institute, University of Exeter, Penryn, TR10 9FE, UK. E-mail: [h.baig@exeter.ac.uk](mailto:h.baig@exeter.ac.uk)

**Fig. 3** (a) Zoomed image of the back side of the PSC used in the present study. (b) PSC with a concentrator. (c) IV characteristics of the PSC measured at  $1000 \text{ W m}^{-2}$ ,  $530 \text{ W m}^{-2}$ ,  $390 \text{ W m}^{-2}$  and  $160 \text{ W m}^{-2}$ . (d) IV characteristics of the CPV unit measured at  $1000 \text{ W m}^{-2}$ ,  $530 \text{ W m}^{-2}$ ,  $390 \text{ W m}^{-2}$  and  $160 \text{ W m}^{-2}$ . (e) IV characteristics of the PSC measured at different inclinations at  $1000 \text{ W m}^{-2}$ . (f) IV characteristics of the CPV unit measured at different inclinations at  $1000 \text{ W m}^{-2}$ . (g) Power ratio and average flux on the CPV at different angles of incidence. (h) Optical efficiency of the CPV at different angles of incidence.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
