Correction for 'Construction of a hierarchical carbon nanotube/MXene membrane with distinct fusiform channels for efficient molecular separation' by Mingmei Ding *et al.*, *J. Mater. Chem. A*, 2020, DOI: 10.1039/d0ta07354g.

The authors regret an error in the Acknowledgements section of the published article which meant that Jacinta White was not acknowledged correctly. The corrected Acknowledgements section should read as follows:

This work was financially supported by CSIRO Manufacturing, the Fundamental Research Funds for the Central Universities and the World-Class Universities (Disciplines), the Characteristic Development Guidance Funds for the Central Universities, the National Key Research and Development Project of China (2016YFC0400803), the National Natural Science Foundation of China (No. 51738013 and No. 51978239), the 111 Project under grant number B20044, and the Priority Academic Program Development Project of Jiangsu Higher Education Institutions (PAPD). Mingmei Ding and Qin Liu would like to acknowledge the scholarship received from the China Scholarship Council (CSC). The authors would like to acknowledge Ray Huang, Derrick Ng, Jacinta White, Aaron Seeber, and Mark Greaves from CSIRO for their assistance with water contact angle measurement, BET, TEM, XRD analyses, and SEM training, respectively. The authors would also like to thank Dr B. Chen and Prof. Q. Zhou from Nanjing Tech University for performing the AIMD simulations of the studied electrolyte using VASP.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
