The authors regret that one of the funders was incorrectly shown in the acknowledgements section of the original manuscript.

The acknowledgement beginning “DPG acknowledges support from...” should be correctly given as “This project has received funding from the European Union’s Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No. 796287”.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
